

Philip W. Mote is a professor in the College of Oceanic and Atmospheric Sciences at Oregon State University, director of the [Oregon Climate Change Research Institute](#) for the Oregon University System, and director of Oregon Climate Services (state climate office). Dr. Mote's current research interests include scenario development, regional climate modeling with a superensemble generated by volunteers' personal computers, and adaptation to climate change. He is the co-leader of the NOAA-funded Climate Decision Support Consortium for the Northwest, and also of the DoI-funded Climate Science Center for the Northwest. He is involved in the [Intergovernmental Panel on Climate Change](#), the [US National Climate Assessment](#), and has served on numerous author teams for the National Research Council (NRC). He earned a B.A. in physics from Harvard University and a Ph.D. in atmospheric sciences from the University of Washington.
